Re: Notice of Intention to Commence Small Mining Activities, TJKSK Placer Mining Claims Project, S/053/046, Washington County, Utah

Dear Mr. Gore:

The Division received the attached Notice of Intent to Conduct Small Mining Operations from Feller Holding Corporation on March 15, 1995 for a proposed small mining project involving BLM lands and minerals located in Sections 27 and 28, T40S, R16W, SLBM, Washington County, Utah. The Notice *does not* satisfy the notice requirements of Rule R647-003 of the Utah Mined Land Reclamation Act of 1975, Title 40-8, et seq., Utah Code Annotated.

The following information is still required:

A map of the proposed mining operation needs to be provided. This map needs to be of sufficient detail as to show the areas of previous disturbance in the area that will not be redisturbed by this operation.

The Variance Request section was not completed. Unless notified prior to beginning operations, the Division will assume no variances are requested. The Division will hold the operator to meeting all the operation and reclamation practices as outlined under Rule R647-3-110.

To date, we have not received the required 1994 annual reports from Feller Stone Inc. for their other permitted mining operations. Until we receive these reports, we cannot accept any new mining permits. Failure to file the reports in a timely manner may constitute a violation of Rule R647-3-116.

We will suspend our review and await the amended Notice of Intention. In reply, please reference our file number S/053/46. Please call if you have any questions. Thank you for your cooperation.

Sincerely,

Lynn Kunzler  
Reclamation Specialist
